**PRINT IT FORWARD**

## PRINTING HELPS YOUR BUSINESS SUCCEED.

Non-profit organizations depend just as heavily on printing, but unfortunately, many churches and charities are unable to dedicate the necessary funds to support their most basic printing needs.

## PRINT IT FORWARD™

Print media design is an essential key to the success of your business or advertising campaign. Professionally designed marketing materials help a business maintain its image, lead to increased company awareness and supplement all areas of your marketing efforts. If your company has excellently designed print advertising, your company is portrayed as an excellent company.

*Now, when your business partners with Matly Digital Solutions, you can help support a non-profit organization. Matly Digital Solutions founded its Ministry Division in 2000 to better serve the non-profit community. Our commitment to local churches and charities has inspired our new program Print It Forward™. For every \$1000 your business spends on printing, MDS will honor a \$100 Printing Credit to the non-profit organization of your choice.*

*The Printing Credit donation applies to in-house printing jobs only. Printing Credits expire one year from the date issued. The non-profit recipient of the Printing Credit must be verified in writing before the printing job has been delivered. Printing Credits cannot be given retroactively. Special discounts, including standard non-profit discount, cannot be used with a printing credit. Maximum \$5,000 credit per year per organization.*

*“Our board members really came through for us. We handed each one a brochure at our monthly meeting and by the next meeting we already had printing credit with Matly Digital Solutions.”*

*“We were able to save tremendously on our printing budget, and in turn apply that savings to our programs.”*

**KAY FRAZIER**  
Archdiocese of Louisville

*“This has been such a great opportunity for our organization. Thanks to MDS’ Print It Forward™ we were able to give our church materials a much needed face lift.”*
